I claim that it cannot be excelled, let in. In pri-
vate and public use; in economy, because it is
firm and hard as soon as made and will not shrink
when exposed to the atmosphere, like most
soaps; it will therefore wash half as much
as the cheap soap now in market at the same
price; 3d. For perfection in washing. You must
wash with a pure, clean soap, or you cannot have
clean, white clothes. 4th. It is the most delicate
soap. 5th. I claim for it an advantage over all
other soaps in that it will keep leaving in water for
10 or 15 hours without losing its lather. 6th. It is
not so apt to be forgotten in the tub

An Important Railway Contract—
The West Virginia Central to be
Built.

We have by a telegram from Catletts-
burg, Ky., this morning, the important
announcement that a contract was closed
yesterday at Ceredo, between the Com-
missioners of the West Virginia Central
Railway and the Kentucky & Great East-
ern Railroad Company, whereby the for-
mer transferred to the latter all the fran-
chises of the West Virginia Central.
The dispatch affords no information re-
specting the terms of the contract. We
have before us, however, and append be-
low, the letter recently addressed by the
President of the K. & G. E. Company to
the Commissioners, setting forth the terms
on which the company would take the
charter. The Commissioners held a
meeting and agreed to accept the proposi-
tion, and endorsed their names on the pa-
per. We have no doubt therefore that
the contract signed at Ceredo yesterday
was exactly on the basis of the terms laid
down in this letter.

KENTUCKY & GREAT EASTERN R. R. CO.,
CINCINNATI, October 30, 1871.
Hon. Z. D. Ramsdell, Commissioner West
Va. R. R.

Sir: Your favor relating to the charter
of the West Virginia Central railroad is at
hand.

In behalf of the Kentucky & Great
Eastern Railway Company I submit to
the Commissioners of the State of West
Virginia, into whose hands the charter of
the West Virginia Central railway is
placed, the following propositions:

1st. This proposition shall be accepted
by the said Commissioners within thirty
days from and after the date of this letter.

2d. The Kentucky and Great Eastern
Railway Company will commence the
survey upon the said West Virginia
Central railroad within six months from
and after the acceptance of this proposi-
tion.

3d. Said Kentucky and Great Eastern
Railway Company will commence the
work upon said road within one year
thereafter.

4th. And will complete one-fourth of
the entire distance of said road within
two years from and after the commence-
ment of the work.

5th. And complete the whole line of
said road within a period of six years
from and after the commencement of the
work thereon.

6th. Upon the acceptance of this propo-
sition, the said Kentucky and Great
Eastern Railway Company will enter into
contract with the said Commissioners
within thirty days from and after the ac-
ceptance of this proposal, for the fulfill-
ment of all the conditions therein set out.

Respectfully yours,
S. W. MORTON,
Pres't of the Kentucky & G. E. R. Co.
[Endorsed] D. D. T. FARNSWORTH,
J. G. McGOWAN,
WM. B. CHANE,
and Z. D. RAMSDALL,
Commissioners.

A Candidate for President at Wash-

ington Hall this Evening.

The people of Wheeling are invited to
listen this evening to a lecture by Mrs.
VICTORIA C. WOODHULL, of New York,
a woman who in various ways has ac-
quired a degree of notoriety not at pres-
ent enjoyed by any other person in the
United States. Whether this notoriety is
altogether of a kind to be desired by a
lady we cannot profess to say, for that
depends on the standpoint from which
you look at it.

If Mrs. WOODHULL confined herself to
the question of suffrage and left her per-
nicious theories of the marriage relation
to those who practice what she preaches,
we think she would do more for the ele-
vation of her sex than she does, and achieve
a better fame for herself; but as it is, the
good she might do on the one hand is
counteracted by the harm she does on the
other; and we have no doubt the cause
of suffrage for woman has suffered by
Mrs. WOODHULL's advocacy of it, simply
because she has made the association of
it with her own name odious to the moral
sense of the country by her advocacy of
what is popularly termed free love.

We believe her lecture to-night is to
treat of the suffrage question, though
whether it will be confined to that we are
not advised. But whatever may be the
subject of the lecture, there can be no
doubt that as a literary and intellectual
entertainment it will be first-class. Mrs.
WOODHULL is a brilliant and intrepid
woman, whom it is well worth the price
of the lecture to see and hear, leaving out
of the question the merit of her argu-
ment.

The attention of the Register is respect-
fully directed to two things in our tele-
graphic columns this morning. One is a
letter from a Democratic Ohio editor, who
declares that the Democratic party is dead
and that the carcass must be buried. The
other is a letter from John Quincy
Adams, of Massachusetts, advising the
Democratic to abandon their organization
as a party and support some opposition
Republican to next President. That is to
say, one plan is to bury the corpse at
once, and the other is to keep it as long
as the weather permits. We would like
very much to know which plan our neigh-
bor favors.

AMONG the shipments from Cincinnati
to Charleston, Tuesday, by river, we note
was a complete outfit for a brewery and a
crew to run it. Charleston is bound to
keep the Convention. She is laying deep
traps for the Ohio county delegation. She
has already on hand a large stock of
"mountain dew."

STRENUOUS PAPER reports a sharp
increase of small-pox in that city. Tues-
day afternoon there were eighteen pro-
nounced cases. The City Council is be-
ginning to get scared, and bestirring
themselves about means of prevention.

The Latest Bulletin About the

O'Leary Cow.

From the Chicago Tribune.

The investigation now in progress, with
a view to ascertain the origin of the
Chicago fire, and the responsibility for its
extensive spread, will, we hope, result
in something tangible. Nevertheless, it
must be admitted that very little satisfac-
tory information has been obtained. The
Commissioners have, however, brought
out these facts, viz, that Mrs. O'Leary
went to bed at half past eight o'clock on
the night of the fire, on account of her
"sore foot"; that Pat McLaughlin, the fil-
der, resides in the front part of the O'
Leary mansion; that Mrs. Sullivan, who
lives opposite the O'Learys, did not save as
much from the fire as she could twist
around her finger; that Mrs. O'Leary heard
Mrs. White say that McLaughlin had a
party, and the party wanted oysters, and
the oysters wanted milk to be "stewed" in,
and that they went out and milked her
(O'Leary's) cow, and that, finally, con-
siderable know-nothingism can be de-
veloped among the Irish, since none
of the people last night vicinity have any
idea of how long it was, or how far
the fire had got before the engines ar-
rived. The McLaughlins acknowledge
that they were having a social en-
tertainment in honor of a "greenhorn"
relative who had just arrived from Ire-
land. (The particulars of this entertain-
ment were lost by the destruction of the
Times newspaper.) But they deny hav-
ing indulged in milk punch or oys-
ter "stew," or having milked the O'
Leary cow after Mrs. O'Leary had gone
to bed. All the witnesses seen agreed
that there was a pile of shavings in the
barn, and that the fire was first observed
on the side of the barn where the shav-
ings were stored.

More "Grab" for the Bugle Horn

of Liberty.

From this week's Bugle.

Our much respected lady friends, Mrs.
M. C. Kyne and Mrs. E. G. Haylett, have
each placed us under obligations this
week, in the way of kind remembrances.
Mrs. K. has sent us a "grabber" that in
size, flesh and fat is enough to spoil a
poor printer's palate; and Mrs. H. a bas-
ket of savory sausage, that, if uncooked,
would have measured twenty feet in
length, beside the big cabbage spoken of
in our last issue.

We return thanks to our neighbor Mrs.
Horne, on John street, and also to the
Misses Farnsworth, for their remembrance
in the luscious supply of sausage, pudding
and chine, sent us last week.

SOMETHING WORTH REMEMBERING.—
The London Local, excellent authority,
gives the following recipe for the cure of
bone loom: As soon as the disease is felt,
put directly over the spot a fly blister
about the size of your thumb nail, and let
it remain for six hours, at the expiration
of which time, directly under the surface
of the blister, may be seen the felon,
which can be instantly taken out with
the point of a needle or a lancet.

There is talk up at Washington, Pa.,
of extending the Chartiers Valley rail-
road to Waynesburg. The Advance says
the road is now yielding a net profit on its
business of \$100 per day.

CHICAGO.

OBSERVANCE OF THANKSGIVING.

CHICAGO, Nov. 29.—Thanksgiving will
be generally observed in this city to-
morrow. All the daily papers will sus-
pend, and the banks, Postoffice, Custom
House, Boards of Trade, etc., will be
closed, and business generally will rest
for the day.

SMALL-POX.

The small-pox prevails to some extent
in this city, and much dissatisfaction is
evidenced by the neglect of many physicians
and others to report the cases to that
body. The Board threatens to criminally
prosecute any person guilty of this neg-
lect hereafter.

Human bones were found this morning
in the debris at No. 99 North Clark street.
Before the fire a family named Dressler
lived there, consisting of Mr. and Mrs.
Dressler and her brother, all of whom
have been missing. The remains found
are supposed to be those of Mr. Dressler,
as they were discovered near the spot
where his safe stood, and where he was
last seen.

TENNESSEE.

NASHVILLE, Nov. 29.—Hon. T. A. R.
Nelson, of East Tennessee, has resigned
his seat on the supreme bench, and J. T.
Stewart, a distant relative of the late
section of the State, appointed his
successor.

The bill to repeal the law allowing a
conventional rate of interest as high as
10 per cent was killed, in both Houses
of the Legislature to-day by a decided ma-
jority.

Strohmmer, one of the parties princi-
pally concerned in the Beatty scound-
rel, by which the Government was
swindled out of \$60,000, left here this
evening in charge of U. S. Marshal Spence
for Washington, where he will be tried
with Gen. W. B. Stokes and others.

Officers who were sent to Fortress Con-
ception to capture Captain Beatty and his sons,
have returned and report that they have
fled the country.

The Tragedy at Havana.

NEW ORLEANS, Nov. 29.—The Times
says that unparalleled infamy and brutali-
ty were shown in the way which the civil-
ized world bestows upon the deed of un-
exampled savagery and blood thirstiness
of the authorities of the island of Cuba in
the execution of eight young medical stu-
dents, charged with desecrating the grave
of a Spanish officer. It says the govern-
ment of Cuba has placed itself beyond the
pale of the law of nations and its special
incumbent on this republic to take into
serious consideration the question whether
such a government shall be permitted
to hold sway over an island almost within
sight of our shores, and to insult by such
flagrant acts the Christianity and civilization
of our age.

The Mace-Cornn Prize-Fight Near

New Orleans.

NEW ORLEANS, November 29.—The
Mace-Cornn mill occurs to-morrow
within fifty miles of New Orleans. Many
noted pugilists are here. The police re-
port an influx of a large number of
roughs and thieves.

The steamer Andy Johnson, which
was sunk last week below Quincy, Ills.,
was raised yesterday and will be taken to
Hannibal for repairs.

The centre cotton mill of the Lud-
low Manufacturing Company, at Jenks-
ville, Massachusetts, was burned this
morning. Loss \$30,000. Partially in-
sured.

WEST VA. CENTRAL RAILWAY.

The Charter Transferred to the Ken-
tucky & Great Eastern Co.

LOUISVILLE, Nov. 29.—The Kentucky

the Commissioners of West Virginia, by
which they acquire the franchises and
property of the West Virginia Central

WASHINGTON.

REDEMPTING FIVE-TWENTIES.

WASHINGTON, Nov. 29.—The Treasury
Department to-day received sixteen mil-
lions of the called 92 bonds from London.
Altogether the Department has thus far
received fifty-three millions of the one
hundred millions of called bonds, of which
it will only be requisite to redeem in coin
between six and seven millions, which
have already been provided for.

The remaining portion has all been offered in
exchange for new 5 per cents. It is con-
sidered believed at the Treasury Depart-
ment that the Government has thus far
received fifty-three millions of the one
hundred millions of called bonds, of which
it will only be requisite to redeem in coin
between six and seven millions, which
have already been provided for.

The small-pox is spreading, and the
Sanitary Inspector thinks it is likely to
become epidemic. The health depart-
ment have not the requisite funds to
adopt the necessary preventive meas-
ures.

An examination of the surties upon
the Flak bank in the Mansfield suit were
expected to be made yesterday. One of
them, Mr. Blanchard, stated that he was
worth over one hundred thousand dol-
lars, but his real estate was only a stable.
His other property was mainly in sus-
pension bridge stock. The examination
was not concluded.

Senator Morton had his wallet taken
by a pick-pocket at the Jersey City depot
on Tuesday evening. The thief escaped.
A party of young Japanese arrived
yesterday from San Francisco.
They were taken to the city hall, and
sent out by the government to receive an
English education.

NAVAL INTELLIGENCE.

It is supposed at the Navy Department
that the Terror having yesterday been or-
dered to Havana, will arrive there to-day.
The Voroster, now at Boston, will be
the flagship of the North Atlantic fleet.
Admiral Leach having, it is said, left Wash-
ington to join her. The Swatara, now at
Norfolk, cannot immediately join the
squadron, as her Captain reported this
morning that she first required repairs.

The Severn is nominally in commis-
sion, but is insufficient for its erection.
The Worcester takes her place. The
Kansas and Nipic will soon join the
squadron. The Shawmut, which recently
started for Brazil, will be recalled for
temporary duty in the squadron. The
authorities do not apprehend any difficul-
ties at Havana with the American fleet.
The return of the squadron to the
North Atlantic is in accordance
with the usage to have a force convenient
for the protection of our citizens, should
necessity for it occur. The Con-
gress, now at New York, will, it is
supposed, go to the Mediterranean to re-
lieve the Guerriere as flag ship of the
squadron.

The annual report of Supervising Archi-
tect Mullett gives a full account of the
work with which his office has been
charged. No action has been taken in
relation to the new Custom House and
Postoffice at St. Louis, the sum ap-
propriated for the purpose of the erec-
tion of the building, but should not be
commenced unless the government
can afford to spend an amount necessary
to produce the proper result. The
progress of the work on the New York
Postoffice is gratifying. The cost thus
far is kept within the estimate. There
is no reason to doubt that the build-
ing will be completed within the limit
fixed by law. The progress of the Boston
Postoffice is also gratifying. It is ex-
pected to be ready for occupancy during
the summer of 1873.

He recommends that the Marine Hospi-
tal at a more eligible site be sold, and
a hospital erected on the pavilion system;
also that the smaller Marine Hospitals be
disposed of and hospitals be maintained
by the Government at the principal ports
of the country. He says, in reference to
the Custom House at Chicago: "I believe
the necessities of the Government require
the purchase of the remainder of the block
on which the Custom House building is
located and the erection thereon, without
delay, of a building of sufficient capacity
to accommodate all branches of the Gov-
ernment service in that city. Mr. Mul-
lett calls attention to the impor-
tance of the work of the Custom House
of the battery as site for the erection
of a new Custom House and other build-
ings for the use of the revenue department
of New York city, and also erecting apprais-
ers' stores in that city. "I also call special
attention to the great importance of pro-
viding similar stores at the ports of the
United States, and at St. Louis, all of
which should be freepport." The report
concluded with the quarantine
question, the supervisor expressing the
opinion that, if the quarantine is to be
maintained it should be under the direc-
tion of the general government.

The President has appointed C. W. Babcock
Governor of Kansas. Gen. J. W.
Henderson, of Iowa, and N. Hill, of
St. Louis, United States Commissioners
to examine and report upon the road and
telegraph lines of the Kansas & Texas
Railroad Company in the Indian Terri-
tories.

A Vice President Colfax and family, Sen-
ators Morton and Merrill, of Maine, with
their families, and Senator Sumner arrived
to-day. There are now about thirty
members of Congress in Washington.

ST. LOUIS.

ST. LOUIS, Nov. 29.—The National
Board of Trade will meet at St. Louis on
the 6th of December, instead of Cin-
cinnati, as incorrectly reported from Chicago
last night. Arrangements have been made
for the proper reception and entertain-
ment of the members.

Charles West from New York, 103 cents
and Philadelphia has advanced to 98 cents
per cwt. to Cincinnati, \$1.00 to Chicago,
\$1.20 to St. Louis, and other points pro-
portionately.

An expedition of Catholics to teach the
natives of Ecuador the mechanic arts and
farming, started to-day in the Ocean
Guano.

The health officers report that the
cholera has disappeared from the bay,
and the steamer Franklin will be allowed
to come to the city Sunday.

Coal fifty cents per ton at anchor to-
day in spite of the cold weather.

The government steamer Gen. McAlister
left for New York to-day, and the month
of the Mississippi, was launched to-day.

A portion of the Erie basin of South
Brooklyn gave way last Friday from the
pressure of the stock against the ware-
house. Damage, \$9,000.

There is a bill to-day in the Bible
at Hunter's Point. The Lord's Prayer
was read without interruption. Kate
Dennew, who was expelled as a leader of
the disturbances, applied for re-admission
but was refused. Some of the suspended
scholars were allowed to return. Four
policemen remain on duty in the school.

In the case against Smith, Gould and
Martin, growing out of the transactions of
Black Friday, the jury came into Court
this evening, and the foreman announced
that ten were in favor of a verdict for the
plaintiff and two were holding out. He
asked the Judge the inquiry whether
it was proper if the defendants were held
out to these two. The Judge sent them
back, saying that he would consider the
question if they did not agree on a ver-
dict. The jury were locked up for the
night.

The patent case of Humiston vs. the
American Telegraph Company, for alleged
breach of contract, and in which \$100,-
000 is claimed, closed to-day in the United
States District Court by a verdict of \$75,-
000 for the plaintiff.

Mayor Hall has not yet been arrested.
Connolly was locked up in the low
street jail this afternoon. Connolly
left his apartments at the New York
Hotel yesterday, and accompanied by
two Deputy Sheriffs, scoured the city in
quest of bail, but without success, and at
length he was forced to admit that further
search would be useless, and he reluctantly
consented to be conveyed to jail. The
conduct of McGovern in withdrawing his
name from his bond was especially painful
to the ex-Comptroller. He was provided
with a comfortable bed and left to his
gloomy reflections. As though in
mocking to his present humiliating
position, the first object which met his
gaze on entering the jail was a nail-size
portrait of himself as he appeared in the
days of his prosperity. Connolly appeared
much depressed in spirits and looked, in
fact, a broken-hearted man.

The Grand Duke Alexis was given a
banquet by the committee of citizens at the
Academy of Music to-night. The assem-
bly comprised the very best citizens of
both sexes. The decorations were mag-
nificent and in excellent taste. In the
corridors were large photographs of the
Russian imperial family, while a banner
on either side of the stage represented the
Emperor Alexander and his wife, the
Empress Maria, and President Lincoln liberating
slaves. The sidewalk in front of the entrance
on 14th street, was carpeted and carpeted,
and to this the Grand Duke drove up at
half-past 10 o'clock, where he was received
by Gen. McDowell and E. M. Stoughton
and conducted to his box.

It is announced that James S. Morgan,
of London, borrowed \$5,000,000 for the
Pennsylvania Railroad Co., debentures of
the leased Philadelphia & Erie road, and
the offers thereof have reached \$12,-
500,000.

A REMARKABLE LETTER.

A Democratic Editor Declares that
the Party is Dead and Must be Buried.

CHICAGO, November 29.—The editor of
the Democrat of Davenport, Iowa, has
addressed the following letter to the
Chicago Times, which appears in that
journal this morning:
